

Input  
Data

```
graph LR; A[Input Data] --> B[Neural Network]; B --> C[Output Data]
```

The diagram illustrates a sequential process. It begins with a rectangular box on the left containing the text 'Input Data'. A thick black arrow points from the right side of this box to the left side of a second rectangular box in the center. This second box contains the text 'Neural Network'. Another thick black arrow points from the right side of the 'Neural Network' box to the left side of a third rectangular box on the right. This final box contains the text 'Output Data'. All three boxes are white with black borders, and the text is in a black serif font.
